

Guidance paper on the deconstruction of transverse structures

As part of the EU Biodiversity Strategy 2030, the EU Commission has issued a guidance paper to help member states prioritise the removal of transverse structures and the restoration of floodplains and wetlands in order to reach the target of 25,000 km of free-flowing rivers. At the same time, a number of European funding instruments are listed.

The "Guidance on Barrier Removal for River Restoration" can be downloaded here:

https://ec.europa.eu/environment/publications/guidance-barrier-removal-river-restoration_en

A Summary is also available here:
